WEBSITE

The British European Orthopaedic Foot Ankle Academy was established to meet the needs of orthopaedic surgeons who want to expand their foot and ankle knowledge.

Founded by specialist orthopaedic surgeons Manuel Monteagudo and Maneesh Bhatia, the BEOFAA platform offers flexible learning on-demand, written and delivered by foot and ankle experts.

BEOFAA makes it easier than ever before to explore real-life cases, with the time, resources and guidance to refine your diagnostic skills. Expand your professional understanding with the support of fellow surgeons who are passionate about enhancing your practice.

Best of all, BEOFAA online fellowships have been designed with busy schedules in mind. They can be worked on at a time and place that suits you, without the need to compromise quality, quantity or breadth of content.
