

# Warsaw Foot and Ankle Meeting : "Save the joint, save the motion"

**Start Date: 09/06/2022 08:00**

**End Date: 11/06/2022 16:00**

Dear colleagues, Ladies and Gentlemen,

On the weekend of 9-10-11 of June, 2022, the Warsaw Foot and Ankle Meeting will be held in Warsaw, Poland. We will look at the problems of the foot and ankle from an interdisciplinary perspective, discussing all aspects of diagnosis and conservative and surgical treatment. The discussion will be attended by well-known specialists in orthopaedics, rheumatology, endocrinology, oncology, radiology and physiotherapy. We will present the novelties in diagnostic and treatment methods, show new implants, surgical techniques and new trends in rehabilitation.

The meeting is intended for doctors of many specialties - orthopaedic surgeons, rheumatologists, oncologists, endocrinologists, radiologists, GPs, physiotherapists, both consultants and trainees. We also invite nurses and students of medicine and physiotherapy.

We invite you to send your own works and posters.

The meeting is under the scientific patronage of the Department of Orthopaedics and Traumatology of the Warsaw Medical University and the Carolina Medical Center.

See you in Warsaw

Andrzej Komor, M.D.
